BEYOND THE CAMPUS CLEAN AND GREEN ENVIRONMENT PROMOTION ACTIVITIES

- ✓ Arts, Commerce, and Science College, Kharepatan, continues its dedication to environmental sustainability through various clean and green initiatives. These activities extend beyond the campus, fostering a sense of responsibility in neighboring communities. The college regularly organizes cleanliness drives in adopted villages, including Kelavali, Pombhurle, Nadgive, Sherpe, and Chinchavali, as part of the Swachh Bharat Abhiyan and Clean India campaigns. These initiatives encourage waste management, recycling practices, and maintaining clean surroundings. Furthermore, tree plantation drives are organized in partnership with local communities to enhance greenery and promote biodiversity. These efforts align with national campaigns like Majhi Vasundhara and One Earth, aimed at raising awareness about environmental conservation. The college also promotes the use of eco-friendly alternatives and sensitizes residents about reducing plastic use, energy conservation, and water preservation. Through its outreach programs, the college seeks to empower rural communities with knowledge about sustainable practices. By engaging students, faculty, and villagers in these green activities, the institution helps create a cleaner, healthier environment for everyone.

A. Beyond the Campus: Clean and Green Environment Promotion Activities

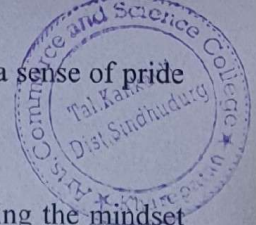

1. SWACHHA BHARAT ABHIYAN themed Swachhata / Cleanlining

Cleanliness is a core focus of environmental sustainability, and Arts, Commerce, and Science College, Kharepatan, extends this commitment beyond its campus through regular cleanliness drives in various adopted villages like Kelavali, Pombhurle, Nadgive, Sherpe, and Chinchavali. These activities, often conducted under the Swachh Bharat Abhiyan and Clean India campaigns, encourage community members to participate in keeping their surroundings clean. Volunteers from the college, including NSS

members, lead the way in cleaning streets, public spaces, and community areas, instilling a sense of pride and responsibility in the local population.

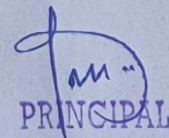

These efforts are not one-time events but part of a continuous campaign aimed at changing the mindset towards cleanliness. Regular cleaning drives help in creating sustained impact, and the college ensures that these activities align with important national events like Gandhi Jayanti, Republic Day, and Independence Day. By involving students and local residents, the college fosters a collaborative approach, making cleanliness a shared responsibility. The outcome of these initiatives is seen in the improvement of hygiene, reduction in waste accumulation, and a cleaner environment in these rural areas.

2. Plastic Free Bharat - Plastic Pick-up

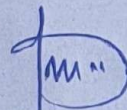

Public Places in the Chinchavali & Kharepatan village where cleaned

Plastik Pickup in Kharepatan village

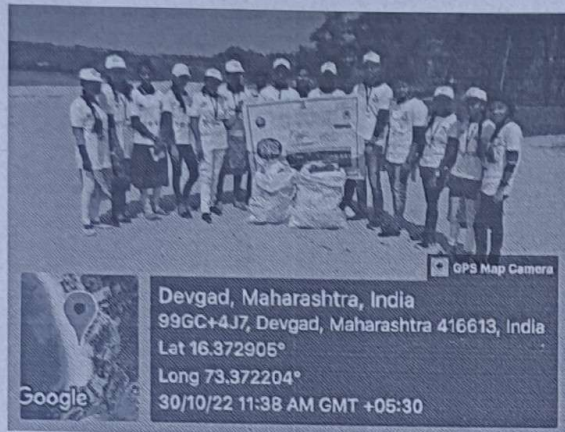

Plastic pollution is a major environmental concern, and the college's Plastic Free Bharat initiative tackles this issue head-on. Through plastic pick-up drives conducted in various villages, students and volunteers collect plastic waste from streets, water bodies, and public spaces. These efforts help in reducing the harmful impact of plastic on the environment, preventing it from entering the soil and water systems where it can cause long-term damage.

By engaging with local communities in these activities, the college spreads awareness about the dangers of single-use plastics and encourages the adoption of more sustainable alternatives. The collected plastic is often sent for recycling, contributing to a circular economy and reducing the waste burden on the environment. The Plastic Free Bharat campaign not only cleans the local areas but also instills a sense of responsibility in participants, making them more conscious of their plastic consumption.

3. Save Coastal

Coastal areas are vital ecosystems that are often threatened by pollution, overfishing, and climate change. The college's Save Coastal initiative focuses on protecting and preserving these fragile environments. Activities include beach clean-up drives, awareness campaigns about the impact of pollution on marine life, and efforts to reduce plastic and other waste materials from entering the ocean.

Students from the college work closely with local fishermen and coastal communities to promote sustainable fishing practices and the responsible disposal of waste. The initiative also involves the planting of mangroves and other coastal vegetation that can protect shorelines from erosion and provide a habitat for marine species. By focusing on the protection of coastal ecosystems, the college contributes to the preservation of biodiversity and the sustainability of coastal livelihoods.

4. Waste Management (Compost Pits and Demonstration on Segregation of Dry and Wet Waste)

PRINCIPAL

Arts, Commerce and Science College, Kharepatan
A/p. Kharepatan, Tal. Kankavli, Dist. Sindhudurg-416703

Waste Management

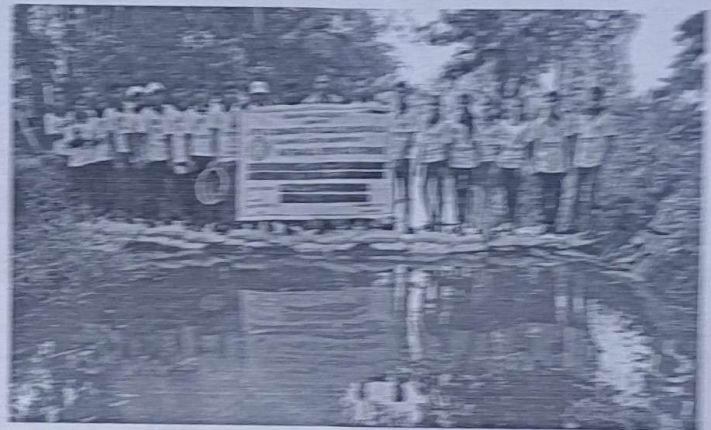

Proper waste management is crucial for maintaining a clean and healthy environment. The college has taken a proactive approach by constructing compost pits in various villages and conducting demonstrations on the segregation of dry and wet waste. These activities are designed to teach communities how to manage their waste more effectively, reducing the amount of waste that ends up in landfills.

The compost pits allow for the conversion of organic waste into nutrient-rich compost, which can be used to improve soil quality and support agricultural activities. Demonstrations on waste segregation help communities understand the importance of separating recyclable materials from organic waste, promoting a culture of recycling and waste reduction. By empowering local residents with the knowledge and tools to manage their waste, the college helps in creating cleaner and more sustainable communities.

5. SAVE WATER

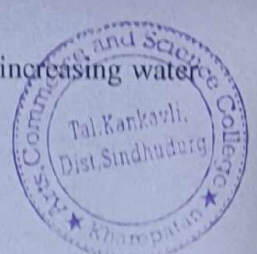

It sounds like our college is deeply involved in water conservation efforts and raising awareness about the importance of saving water. The initiatives have mentioned, such as conducting street plays, rallies, personal meet, D2D visits etc, and the construction of Vanrai Bandharas in various villages like Kharepatan, Pombhurle, Nadgive, Chinchavali, Sahidrawane, and Salisate, show a strong commitment to the cause.

These activities are impactful because they directly engage communities, encouraging participation and spreading awareness about the critical need to conserve water resources.

traditional method of water conservation, plays a key role in groundwater recharge and increasing water availability, especially in rural areas

Save Tree / Plantation

PRINCIPAL

Arts, Commerce and Science College, Kharepatan
A/p. Kharepatan, Tal. Kankavli, Dist. Sindhudurg-416703

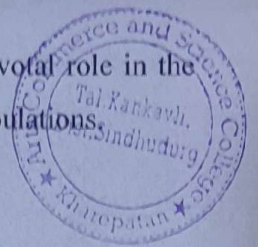

In promoting environmental conservation, tree plantation drives are one of the most effective tools. The college actively organizes tree plantation events in villages like Sherpe and Kelavali, aiming to improve the green cover and contribute to biodiversity. These initiatives, conducted with the involvement of both students and local community members, focus on planting indigenous species that can thrive in the local environment. This not only helps in ecological restoration but also raises awareness about the importance of trees in combating climate change and improving air quality.

Tree plantation drives are often paired with sessions on the significance of trees in maintaining ecological balance, preventing soil erosion, and providing a habitat for wildlife. The activities are aligned with state and national programs like Majhi Vasundhara and One Earth, which emphasize environmental

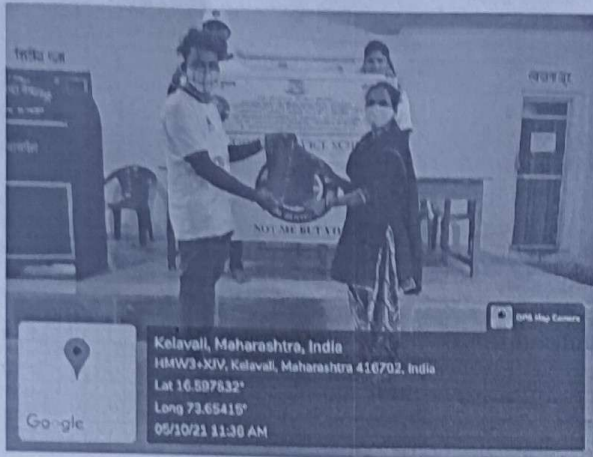

PRINCIPAL

A/p. Kharepatan, Tal. Kankavli, Dist. Sindhudurg-416703

sustainability. By focusing on reforestation and greening efforts, the college plays a pivotal role in the restoration of degraded lands and the promotion of eco-friendly practices among rural populations.

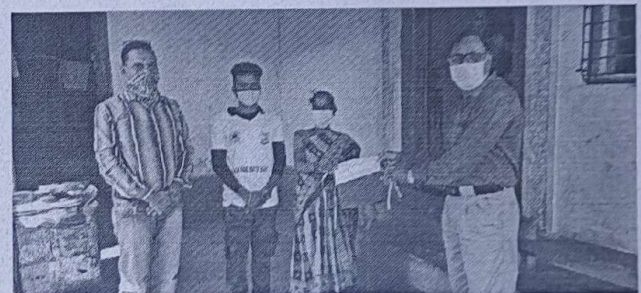

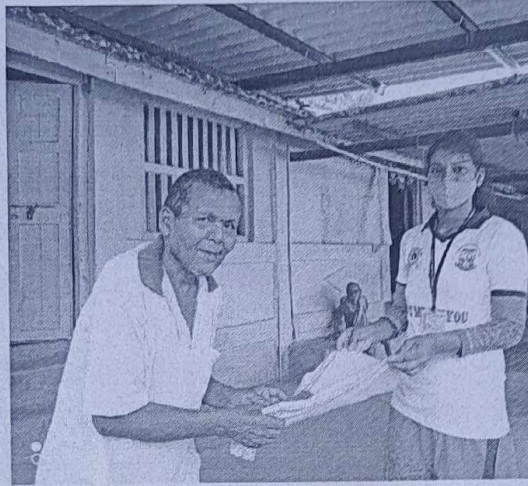

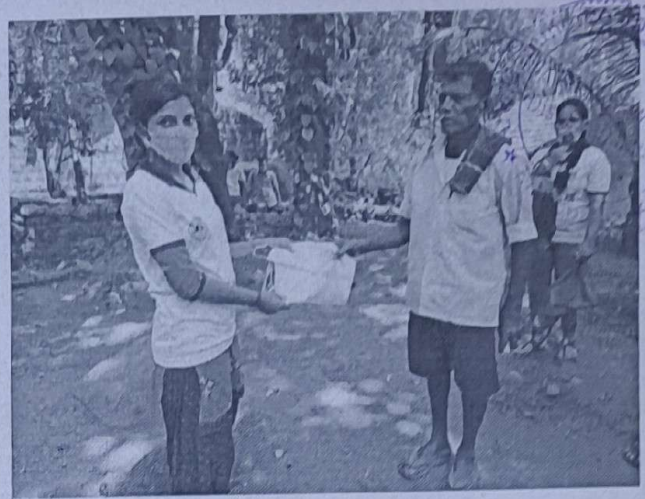

6. Plastic Free Bharat - Cloth Carry-bags Making and Distribution

Arts, Commerce and Science College, Kharepatan
A/p. Kharepatan, Tal. Kankavli, Dist. Sindhudurg-416703

As part of its Plastic Free Bharat initiative, the college also promotes the use of cloth carry-bags as an eco-friendly alternative to plastic bags. Students and NSS volunteers participate in workshops where they learn how to make reusable cloth bags, which are then distributed to the local community. These workshops serve a dual purpose of reducing plastic waste and empowering participants with practical skills. The distribution of cloth carry-bags is often accompanied by awareness sessions where the college emphasizes the importance of reducing plastic use. By offering a sustainable alternative, the college helps in reducing the dependency on plastic bags in the local markets and households. This initiative also strengthens the college's commitment to environmental sustainability, encouraging communities to adopt greener practices in their daily lives.

7. Save Paper - Notebooks Making and Distribution

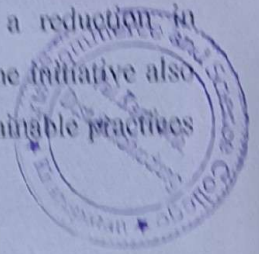

In a world increasingly reliant on paper products, reducing paper waste is an important aspect of environmental conservation. The college's Save Paper initiative involves workshops where students and volunteers create notebooks from recycled paper. These notebooks are then distributed to local schools and community members, promoting the concept of recycling and reducing paper waste.

PRINCIPAL

Arts, Commerce and Science College, Kharepatan
A/p. Kharepatan, Tal. Kankavli, Dist. Sindhudurg-416703

By reusing paper that would otherwise be discarded, the college contributes to a reduction in deforestation and the overall environmental impact associated with paper production. The initiative also raises awareness about the importance of conserving natural resources and adopting sustainable practices in daily life.

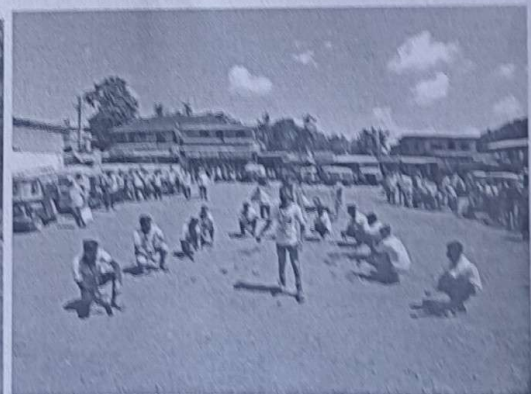

B. Beyond the Campus: Clean and Green Environment Promotion through Awareness

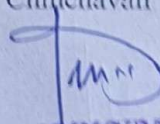

1. Awareness through Street Plays

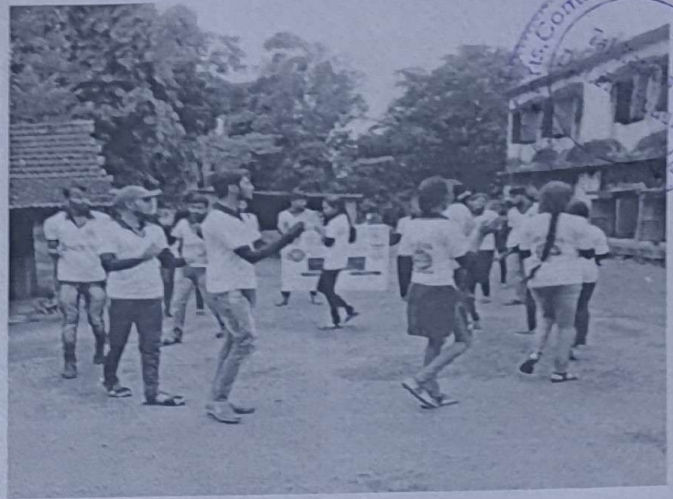

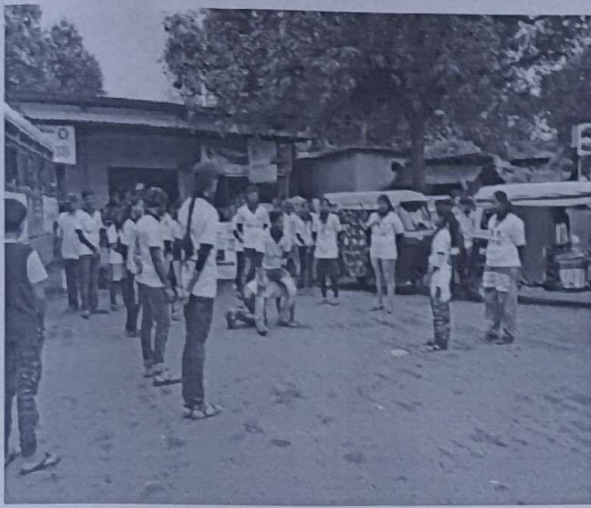

Awareness through street-play at Pombhurle and Nadgive

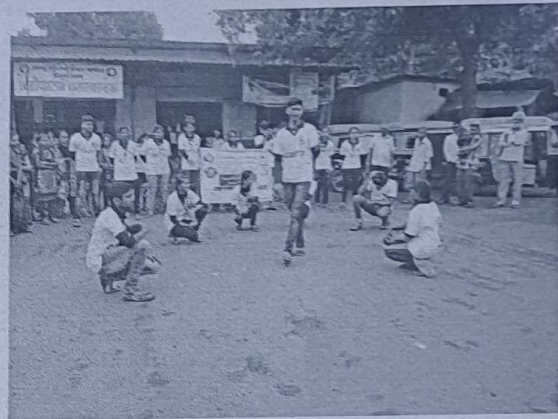

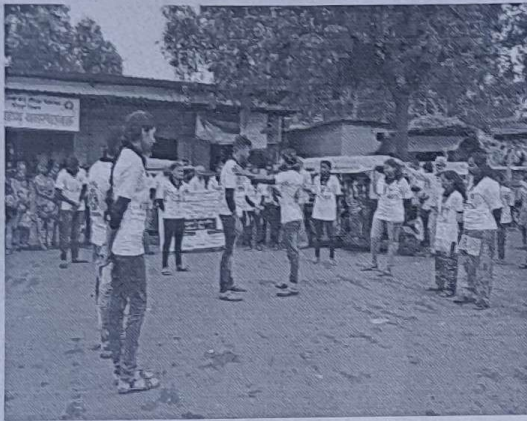

Awareness through street-play at Kharepatan & Chinchavali

Awareness through street-play at Kharepatan & Pombhurle

Awareness through street-play at Kharepatan

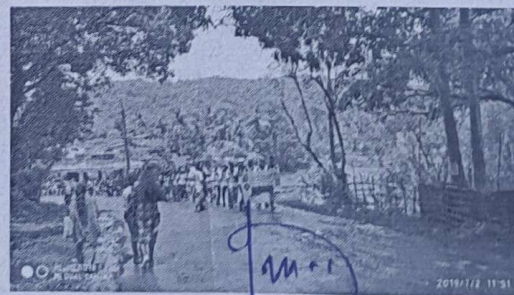

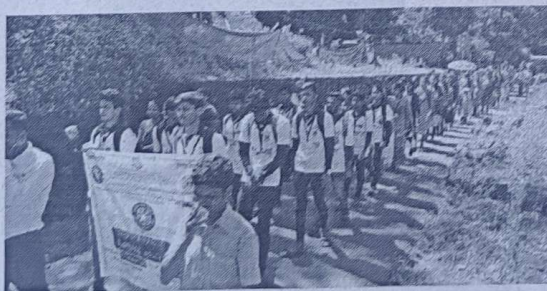

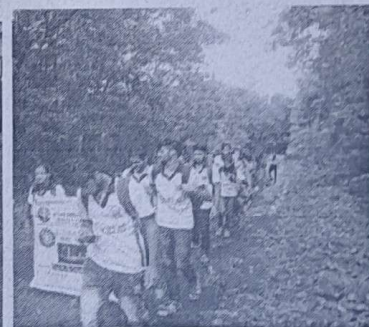

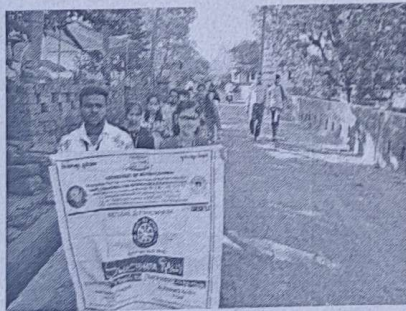

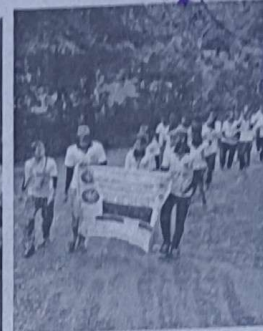

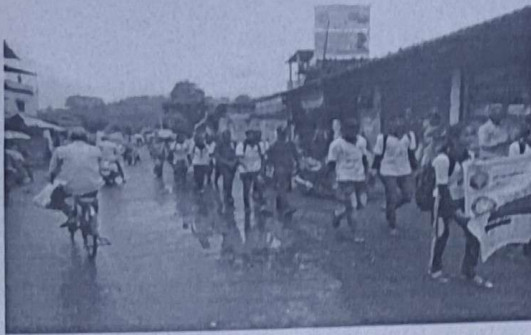

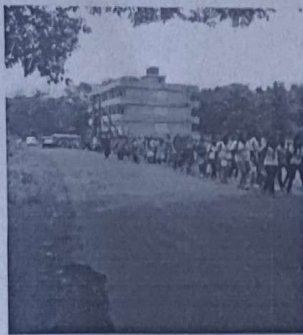

Street-plays are an effective way to communicate important messages to a wide audience in a creative and engaging manner. The college's street-play performances focus on themes like cleanliness, waste management, and plastic pollution, bringing these issues to life in a way that resonates with the local population. By using drama and storytelling, the college is able to reach people who may not be aware of the environmental challenges facing their communities.

These performances are often staged in busy public spaces like markets and community centers, ensuring maximum visibility and impact. The street-plays not only entertain but also educate, encouraging people to take action in their own lives to protect the environment.

Arts, Commerce and Science College, Kharepatan
A/p. Kharepatan, Tal. Kankavli, Dist. Sindhudurg-416703

2. Awareness through Rallies

PRINCIPAL

Arts, Commerce and Science College, Kharepatan
A/p. Kharepatan, Tal. Kankavli, Dist. Sindhudurg-416703

Raising awareness is a crucial component of any environmental initiative. The college organizes rallies in adopted villages to spread messages about cleanliness, waste management, and the importance of protecting the environment. These rallies often involve students, faculty members, and local residents, marching through streets and public spaces while carrying banners and slogans promoting environmental awareness.

The rallies serve as a platform to engage the broader community and encourage them to adopt sustainable practices in their daily lives. By involving a diverse group of participants, the rallies help in spreading the message of environmental conservation to a larger audience. These events are often timed with national and global environmental campaigns, ensuring that the college's efforts align with broader sustainability goals.

3. Awareness through Door-to-Door Visits

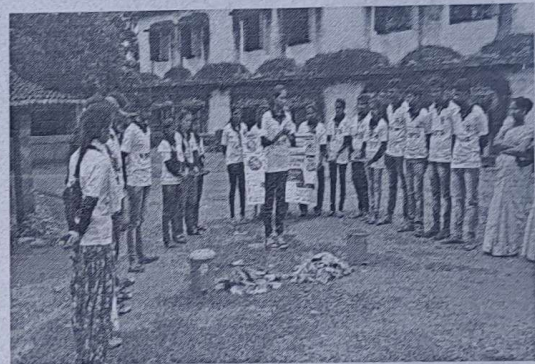

PRINCIPAL

Arts, Commerce and Science College, Kharopatan
A/p. Kharopatan, Tal. Kankavli, Dist. Sindhudurg-416703

Door-to-door visits are a more personal way to spread awareness about environmental issues. The college organizes teams of students and volunteers who visit households in adopted villages to talk about topics like waste segregation, plastic reduction, and water conservation. These visits provide an opportunity for in-depth discussions and allow residents to ask questions and seek guidance on how they can contribute to environmental sustainability.

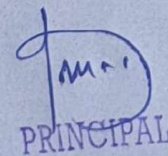

By engaging with people on a personal level, the college is able to make a more meaningful impact, encouraging individuals to take ownership of the environmental challenges facing their communities. These visits also help in building trust and fostering a sense of partnership between the college and the local population.

4. Awareness through Demonstrations

Demonstrations are a practical way to show people how they can adopt sustainable practices in their daily lives. The college conducts demonstrations on a variety of topics, including waste segregation, composting, and the use of cloth carry-bags. These hands-on sessions provide participants with the knowledge and skills they need to make positive changes in their own lives.

By showing rather than telling, the college is able to create a lasting impact, ensuring that participants not only understand the importance of environmental sustainability but also know how to implement these practices in their daily lives.
