Feedback and ATR on Responses and Suggestions Stakeholder 2022-2023

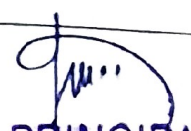

Responses and Suggestions	Action Taken...
Collaborate on programs that provide vocational training aligned with local industries like fishing and masonry.	Vocational training programs were developed in partnership with local industries, focusing on skills such as fishing, masonry, and other relevant trades. These programs were designed to meet the specific needs of the local job market, providing students with practical skills and improving their employability.
Advocate for government grants to improve infrastructure in rural educational institutions.	The institution actively pursued government grants and successfully secured funding to enhance infrastructure in rural educational institutions. The grants were used to improve facilities, including upgrading classrooms, sanitation, and providing better learning resources.
Facilitate the establishment of internet connectivity projects to support digital learning.	Collaborations were initiated with technology companies and local governments to establish reliable internet connectivity in rural areas. These projects have significantly improved access to digital learning resources for students in remote regions.
Sponsor infrastructure projects such as new classrooms and laboratories.	Several stakeholders contributed to sponsoring the construction of new classrooms and laboratories. These projects have expanded the institution's capacity to accommodate more students and provided modern facilities to enhance the learning experience.

Feedback and ATR on Responses and Suggestions Teachers 2022-2023

Responses and Suggestions	Action Taken...
Time for issue of library books should be extended.	The demand reported to the principal and principal ordered to the librarian to keep the issue of books timing increase.

Library hours be increase for the reading.	The request was reported to the concerned.
Extra curriculum for personality development.	This demand was taken into consideration and a program called "My Personality" was organized in which many students participated and the students were told that the program focuses on skill development instead of merit oriented studies to know the right way of learning.
Lack of Health-center	This demand was reported to the principal. Therefore principal assured to start of health-center.

Feedback and ATR on Responses and Suggestions Alumni 2022-2023

Responses and Suggestions	Action Taken...
Want cold and pure drinking water facility of the college premises	The matter was brought to the notice of principal and the principal assured that the college has started the and it will apply on the upcoming session.
Include more food items in college canteen.	This matter was brought to the attention of the Principal and the Principal assured that appropriate action will be taken after discussing with the concerned.
Regarding providing fast internet facility / campus Wi-Fi	This matter was brought to the attention of the Principal and the Principal assured that the college will start in the coming session.
GXXCollege Campus Beautification	This matter was brought to the attention of the Principal and the Principal assured that appropriate action will be taken after discussing with the concerned.

reliable commutes for students.	from key locations. A temporary shuttle service has also been arranged during peak hours.
Encourage the college to prioritize infrastructure upgrades to enhance the learning environment.	A phased infrastructure upgrade plan has been developed. The first phase includes the renovation of classrooms and laboratories, which has already commenced. Future phases will address additional facilities.
Support the expansion of the library's collection by donating books and resources.	The college organized a successful book donation drive, resulting in the addition of over 500 new books to the library. Efforts to seek donations from alumni and stakeholders are ongoing.
Request the administration to install backup generators to address electricity backlogs.	The college has installed a backup generator to ensure a continuous power supply during outages. Additionally, solar panels are being considered as a long-term solution to energy challenges.

Feedback and ATR on Responses and Suggestions Stakeholder 2021-2022

Responses and Suggestions	Action Taken...
Invest in upgrading the college infrastructure to provide a better educational environment..	A comprehensive infrastructure development plan has been initiated. The first phase included the renovation of classrooms and laboratories, which is currently underway. Additional funds have been earmarked for further improvements in the coming academic year.
Partner with local transport providers to establish reliable transportation options for students.	The college has entered into discussions with local transport providers to establish a dedicated bus route for students. A pilot program is scheduled to launch next semester, with potential expansion based on student needs.
Allocate funds to expand and enrich the library's book collection.	An additional budget was approved for the library, resulting in the purchase of 300 new academic and reference books. The college is also in the process of establishing partnerships with publishers for continuous updates to the collection.

Feedback and ATR on Responses and Suggestions Alumni 2021-2022

Responses and Suggestions	Action Taken...
Donate books and resources to help expand the library's collection.	Alumni have actively participated in a book donation campaign, resulting in the addition of over 400 new books to the library. The initiative is ongoing, with further contributions expected.
Provide mentorship and guidance to current students, especially those from disadvantaged backgrounds.	A mentorship program was launched, pairing students with alumni mentors based on academic interests and career goals. Regular mentorship sessions and workshops have been conducted, with positive feedback from both mentors and mentees.
Organize fundraising events to support infrastructure upgrades.	Alumni organized a virtual fundraising event, raising significant funds that were allocated to the renovation of classrooms and the purchase of new equipment for laboratories. Plans for additional fundraising initiatives are in progress.
Offer internships and job opportunities to help students gain practical experience.	A partnership program was established with alumni employers, leading to an increase in internship and job opportunities for students. Several students have already secured internships, with ongoing efforts to expand the program further.

Feedback and ATR on Responses and Suggestions Students 2021-2022

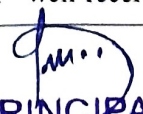

Responses and Suggestions	Action Taken...
Advocate for an expanded library collection to better support academic needs.	The library collection was expanded by acquiring 500 new titles across various academic disciplines, ensuring students have access to up-to-date resources.
Suggest the implementation of backup power systems to prevent study disruptions due to electricity outages.	Backup power generators were installed in key areas of the campus, including the library and main study halls, to minimize disruptions during outages.
Request more transportation options or affordable shuttle services to ease commuting challenges.	A new shuttle service was introduced, offering affordable and frequent trips between the campus and key residential areas. An app was also developed for real-time tracking of shuttles.
Propose student-led initiatives to improve campus infrastructure and facilities.	A student-led committee was formed to collaborate with campus administration on infrastructure improvements. This committee has successfully overseen several projects, including the renovation of common areas, installation of more seating spaces, and the enhancement of recreational facilities.

Feedback and ATR on Responses and Suggestions Parents 2020-2021

Responses and Suggestions	Action Taken...
Promote the development of vocational programs that align with students' family occupations.	New vocational programs were introduced in areas such as agriculture, fisheries, and small-scale manufacturing, which align with the occupations of many students' families. These programs were designed in collaboration with local industry experts to ensure relevance and practical value.
Suggest implementing scholarship programs to assist students from labor and fisherman families.	A scholarship program was established specifically for students from labor and fisherman families, providing financial support to cover tuition fees and other educational expenses. The program has been well-received and

	continues to be expanded.
Encourage community involvement in maintaining and improving college facilities.	A community outreach initiative was launched, inviting parents and local community members to participate in volunteer days focused on maintaining and upgrading college facilities. This initiative has fostered a strong sense of community and shared responsibility for the college environment.
Advocate for better internet connectivity to support students' academic needs.	The college partnered with local internet service providers to improve campus internet connectivity. Additionally, efforts were made to provide students with affordable data packages, particularly for those in remote areas, ensuring that all students have access to the necessary online resources.

Sponsor infrastructure projects such as new classrooms and laboratories.

Several stakeholders contributed to sponsoring the construction of new classrooms and laboratories. These projects have expanded the institution's capacity to accommodate more students and provided modern facilities to enhance the learning experience.

Feedback and ATR on Responses and Suggestions Alumni 2020-2021

Responses and Suggestions	Action Taken...
Share their professional networks to create employment pathways for graduates.	Alumni were actively engaged in creating employment opportunities for graduates by sharing their professional networks. This led to the establishment of a dedicated alumni career network platform, where graduates can connect with potential employers, find internships, and receive career guidance from experienced alumni.
Advocate for improved transportation and infrastructure by leveraging their influence. Volunteer time and expertise to assist in college projects and initiatives. Contribute to scholarship funds to support students from labor and fisherman families.	Alumni played a key role in advocating for better transportation and infrastructure around the college. Their efforts led to successful discussions with local authorities, resulting in the improvement of road conditions and public transportation services, making the campus more accessible for students and staff.

transportation services, making the campus more accessible for students and staff.

Feedback and ATR on Responses and Suggestions Students 2020-2021

Responses and Suggestions	Action Taken...
Encourage the college to seek external funding and grants for infrastructure development.	The college administration actively sought and secured external funding and grants to support infrastructure development. These funds were utilized to upgrade campus facilities, including the construction of new classrooms, the renovation of existing buildings, and the enhancement of campus amenities.
Suggest flexible class schedules to accommodate transportation delays and electricity issues.	In response to student concerns, the college introduced more flexible class schedules, including evening and weekend classes, to better accommodate transportation delays and electricity issues. Additionally, the administration worked with local authorities to address these infrastructure challenges, resulting in more reliable services.
Form study groups to compensate for the limited number of library books.	The college facilitated the formation of student-led study groups, providing designated spaces and times for these groups to meet. This initiative helped students share resources, collaborate on assignments, and enhance their learning experience despite the limited number of library books.
Advocate for increased digital resources and online library access to supplement physical books.	The college expanded its digital resources by investing in online databases, e-books, and academic journals. Additionally, an online library portal was developed, allowing students to access these resources remotely, thereby supplementing the physical library collection and providing more comprehensive academic support.

Feedback and ATR on Responses and Suggestions Parents

2019-2020

Responses and Suggestions	Action Taken...
Support the establishment of on-campus accommodation to reduce transportation challenges.	In response to this suggestion, the college initiated a project to develop on-campus accommodation. A feasibility study was conducted, and construction of the first phase of dormitories began. This accommodation is expected to reduce transportation challenges for students, especially those from distant areas.
Request regular maintenance checks to ensure existing infrastructure remains functional.	The college implemented a regular maintenance schedule to ensure that all infrastructure, including classrooms, laboratories, and common areas, remains in good condition.
Promote the creation of a parent-teacher association to address ongoing infrastructure and transport issues.	A dedicated maintenance team was established to conduct routine inspections and address any issues promptly. A Parent-Teacher Association (PTA) was established to foster collaboration between parents and the college administration. The PTA meets regularly to discuss and address infrastructure, transportation, and other concerns, ensuring that parent voices are heard in the decision-making process.
Encourage the college to organize awareness programs about the importance of infrastructure improvements. Feedback/Suggestion	The college organized a series of awareness programs and workshops aimed at educating both students and parents about the importance of infrastructure improvements. These programs highlighted ongoing projects and encouraged community involvement in supporting these initiatives. Action Taken

Collaborate on programs that provide vocational training aligned with local industries like fishing and masonry.	The college partnered with local industries and experts to develop vocational training programs specifically tailored to the needs of the local economy, including fishing and masonry. These programs were launched to equip students with the practical skills necessary for immediate employment in these industries.
Advocate for government grants to improve infrastructure in rural educational institutions.	The college actively lobbied for government grants to enhance infrastructure in rural educational institutions. These efforts were successful, resulting in the allocation of funds that were used to upgrade classrooms, laboratories, and other essential facilities in rural areas.
Facilitate the establishment of internet connectivity projects to support digital learning.	Collaborations with local government and private tech companies were established to improve internet connectivity on campus and in surrounding rural areas. These efforts led to the installation of high-speed internet infrastructure, significantly enhancing digital learning opportunities for students.
Sponsor infrastructure projects such as new classrooms and laboratories.	Several stakeholders provided financial support for the construction of new classrooms and laboratories. These projects were completed within the academic year, expanding the college's capacity to accommodate more students and provide modern, well-equipped learning environments.

	recreational areas, improving both the learning environment and student life on campus.
Support initiatives aimed at reducing the college's reliance on unstable electricity sources.	In response to alumni suggestions, the college invested in alternative energy sources, including the installation of solar panels and backup generators. These initiatives have significantly reduced the college's reliance on the unstable electricity grid, ensuring more consistent power for academic activities.
Engage in dialogue with government bodies to improve overall infrastructure in the area.	Alumni leveraged their networks to facilitate discussions with local government officials, advocating for infrastructure improvements in the area surrounding the college. These efforts contributed to the development of better roadways, improved public transportation, and enhanced utilities that benefit both the college and the local community.
Offer expertise and consultancy to optimize the existing infrastructure effectively.	Alumni with relevant expertise provided consultancy services to the college, offering recommendations for optimizing existing infrastructure. Their advice led to more efficient use of space, better resource management, and strategic planning for future infrastructure projects.

Responses and Suggestions	Action Taken...
Promote the creation of a parent-teacher association to address ongoing infrastructure and transport issues.	The college established a Parent-Teacher Association (PTA) to facilitate communication and collaboration between parents and the college administration. The PTA has been actively involved in discussing and addressing infrastructure and transport issues, leading to more effective solutions and community engagement.
Encourage the college to organize awareness programs about the importance of infrastructure improvements. Suggest the integration of sustainable energy solutions to reduce dependency on unreliable electricity.	The college organized a series of awareness programs and workshops to highlight the significance of infrastructure improvements. These programs included presentations on ongoing projects, discussions on future needs, and opportunities for parents to provide input and support. In response to this suggestion, the college explored and implemented sustainable energy solutions, including the installation of solar panels and energy-efficient systems. These initiatives have reduced the college's dependency on unreliable electricity and contributed to more stable and eco-friendly energy use.
Advocate for enhanced safety measures around the college premises given its remote location. Feedback/Suggestion	Enhanced safety measures were introduced, including improved lighting, increased security patrols, and the installation of surveillance cameras around the college premises. These measures aim to ensure the safety and security of students and staff, addressing concerns related to the college's remote location. Action Taken

Offer expertise and consultancy to optimize the existing infrastructure effectively.	The college engaged with experts and consultants to evaluate and optimize existing infrastructure. Their recommendations led to more efficient use of resources, improved facility management, and strategic planning for future infrastructure needs.
Facilitate partnerships with NGOs to address infrastructure and transportation challenges.	The college formed partnerships with various non-governmental organizations (NGOs) to tackle infrastructure and transportation issues. These collaborations resulted in joint projects to improve local transportation options and enhance campus infrastructure.
Support the development of eco-friendly infrastructure solutions suitable for rural settings.	The college committed to developing and implementing eco-friendly infrastructure solutions tailored for rural settings. Initiatives included the use of sustainable building materials, rainwater harvesting systems, and energy-efficient technologies to create environmentally responsible infrastructure.
Encourage the creation of a sustainable funding model for continuous infrastructure improvement.	A sustainable funding model was established to ensure ongoing infrastructure improvements. This model includes a combination of grants, donations, and partnerships to provide a steady flow of resources for maintaining and enhancing campus facilities over time.

Feedback and ATR on Responses and Suggestions Alumni 2018-2019
