REPORT ON THE FACILITIES FOR ALTERNATE SOURCES OF ENERGY AND ENERGY CONSERVATION

Arts ,Commerce and Science College, Kharepatan is one of the leading institution promoting environmental and social prosperity instilling practical knowledge that educates people about the importance of renewable energy sources. A note worthy effort has been made to address energy crisis issues through the installation and operation of the solar energy. As a premier institute, Arts ,Commerce and Science College, Kharepatan initiated an activity to adopt an eco-friendly lifestyle by consuming energy from solar sources, for which solar panels have been installed on buildings. Two Solar Power Tie Grid Power Systems of IKW, SKW and 15KW respectively for the use of renewable energy are available in College. Installations were done for solar water heaters for the guest house. 100% LED bulbs and tube lights are used in offices, laboratories, classrooms on college campus to save energy.
